

## **HPC Info Day**

**Organised by ETP4HPC and the European Commission (DG CONNECT)  
on behalf of the Public-Private Partnership (cPPP) on HPC**  
*with the local support of TERATEC*

**Wednesday, April 9<sup>th</sup>, 2014 – Paris**

**Venue : Institut de Physique du Globe - 1 Rue Jussieu, 75005 Paris**

On December 17th, 2013, ETP4HPC, the European Technology Platform (ETP) in the area of High-Performance Computing (HPC) and the European Commission (EC) established a contractual Public-Private Partnership (PPP) for supporting the development of the European HPC eco-system and facilitate the achievement of research and investment objectives in the area of HPC technology provision, application development and sustainable HPC infrastructure. The HPC PPP is one of the eight contractual PPP's launched last December in the frame of the Horizon 2020 Programme for Research and Innovation (2014-2020).

This Info Day is the first public event within the charter of the PPP on HPC. The Programme includes the PPP's objectives, the European HPC strategy, and the Calls for Proposals related to HPC in the Work Programme 2014-2015 of the Excellent Science pillar of Horizon 2020 (Future and Emerging Technologies (FET) and e-infrastructures).

Participants will also have an opportunity to familiarise themselves with new ideas for ecosystem related actions, share their ideas, or just present themselves and their expertise.

The capacity of the venue is limited to 150 people, so please register as soon as you have confirmed your participation at the following address:
