

**THE INTERNATIONAL
MEETING FOR HPC,
SIMULATION, BIG DATA**

27 & 28 June 2017
Ecole Polytechnique, Palaiseau, France

6 good reasons to visit the Teratec Forum 2017 next June!

Forum TERATEC takes its summer quarters for its 12th edition the next 27th and 28th of June at the Ecole Polytechnique campus, in Palaiseau, France

Here are the six good reasons to come to visit the Forum:

1/ Because today, it's not possible to miss this major event if you are a decision maker in the field of high performance simulation and Big Data, coming from the industrial users or from the research world.

2/ Because the **plenary sessions** are the best opportunity to access to the latest developments in the major digital technologies in the industry (*For more information, click [here](#)*)

3/ Because the themes of the **technical and application workshops** are each year the most didactic proposal to discover the emerging technologies and the new sectors of application of the HPC and the Big Data, (*to know more, click [here](#)*)

4/ Because **technological suppliers and innovative SMEs** are present for 2 days to exhibit their achievements on the whole value chain of high-power computing and also, to prove that these technologies, even the most advanced ones, are now accessible for SMEs (*For more information, click [here](#)*)

5/ Because the **thematic areas**:

- SiMSEO, for the diffusion of the use of simulation in VSE, SME and mid-sized businesses enterprises,
- European Research Café dedicated to European research projects and initiatives,
- ... complete in a user-friendly and pedagogical way the Forum, (*to know more, click [here](#)*)

6/ And finally, because what better than an evening at the lake, after delivery of the six trophies of **Numerical Simulation awards**, organized in partnership with L'Usine Nouvelle et L'Usine Digitale (*For more information, click [here](#)*)

So, let's go to TERATEC FORUM 2017!

TUESDAY 27 AND WEDNESDAY 28 OF JUNE 2017 - ECOLE POLYTECHNIQUE, PALAISEAU
